## Overview of services

### Cancer care

From counseling to surgery to recovery, our two outpatient cancer centers cover the entire spectrum of care for cancer patients and their families. We're proud to be accredited by the Commission on Cancer of the American College of Surgeons.

### Digestive disease

We know the importance of privacy. Our diagnostic facility for colonoscopies and endoscopic ultrasounds is comfortable, private and thoughtfully designed.

### Emergency Department

Emergencies happen, so our Emergency Department doors are open 24/7. We are designated by the Texas Department of State Health Services as an Advanced Level IV Trauma Facility.

### Heart services

We offer comprehensive cardiovascular services in partnership with Baylor Scott & White Heart and Vascular Hospital – Dallas. Everything from prevention to assessment to interventional therapies can be offered in-house. In the summer of 2023, a new heart hospital will open on campus, providing specialty services here in Ellis County.

### Imaging services

For patients needing a computed tomography (CT) scan or other imaging exams, our fully equipped diagnostic center can handle your advanced imaging needs promptly.

### Intensive care

In addition to 12 intensive care private suites, we utilize in-house, board-certified intensivists who

are specially trained in treating critical care patients in the Intensive Care Unit (ICU).

### Neuroscience services

Our patients are in good hands when a neurological issue arises. The hospital is designated by The Joint Commission as a Primary Stroke Center. Our care team has expertise in diagnosing and managing neurological disorders and injuries.

### Orthopedics

We offer a full range of services—sports medicine, anterior hip replacements, same-day joint replacements and more. A team of six orthopedic surgeons and physicians strives to quickly assess and treat a variety of orthopedic conditions.

### Surgical services

Whatever your needs, the experienced surgeons and nurses on our medical staff are ready. We offer many minimally invasive procedures, as well as robotic-assisted surgery.

### Women and infant services

We recognize the special healthcare needs of women and infants. That's why our patient-centered, family-oriented care center offers obstetrics, gynecology and breast health services. We have also expanded our Level II Special Care Unit to have private suites for moms and babies.

### Women's imaging

Our Women's Imaging Center offers 3D mammography, breast ultrasound, stereotactic and ultrasound breast biopsies, bone density tests, and more.

### Awards/accreditations

- Fully accredited by The Joint Commission
- Magnet® Recognition by the American Nurses Credentialing Center for excellence in nursing
- Designated a Primary Stroke Center by The Joint Commission
- Commission on Cancer Accreditation
- Quality Bariatric Care Accreditation
- American College of Radiology Accreditation: Mammography, CT, Nuclear Medicine, MRI and Ultrasound
- Guardian of Excellence Award
- Laboratory & Blood Gas Lab Accreditation from the College of American Pathologists
- State-designated Level II Neonatal Intensive Care Unit
- Pinnacle of Excellence Award
- Level II Maternity Designation
- Centers for Medicare & Medicaid Services (CMS) Five-Star rating

### Our Mission

Founded as a Christian ministry of healing, Baylor Scott & White Health promotes the well-being of all individuals, families and communities.
